## Luxembourg-German-Indian Alliance on Neurodegenerative diseases and Therapeutics (Lux-GIANT)

14<sup>th</sup> -15<sup>th</sup> September 2018 in Tübingen

Dear colleagues,  
over the last years, research on molecular, genetic, and clinical aspects of Parkinson's disease has become a major focus in Tübingen and Munich. Our meeting on "Ethnic diversity and Neurodegenerative diseases" to be held on September 14<sup>th</sup> to 15<sup>th</sup> September will bring together leading researchers from all over the world to discuss recent progress in the field.

We are looking forward to seeing old friends and meeting new colleagues for stimulating discussions and fun times in the charming atmosphere of our medieval University town.

Manu Sharma  
Peter Martus  
Thomas Gasser
